INTERACTIONS

As Vitamin K interferes with the effect of anticoagulant drugs (like Coumadin), the concurrent use of these agents should be avoided.

Folinic acid supplementation is not recommended concurrently with methotrexate cancer therapy, as it can interfere with methotrexate's anti-neoplastic activity; however, folinic acid has not been shown to interfere with the anti-inflammatory activity of methotrexate. A patient taking methotrexate for psoriasis, rheumatoid arthritis, or juvenile rheumatoid arthritis can safely take a folate supplement.

As curcumin, an active ingredient in turmeric, has been shown to reduce the therapeutic efficacy of cyclophosphamides (such as Cytoxan) in animal studies, the concurrent use of these two agents should be avoided.

PREGNANCY WARNING

A patient who is pregnant or nursing, or who might become pregnant, should consult a health-care practitioner before using this product.

DOSAGE

Adult patients: 6 capsules twice daily, or as otherwise directed by a health-care practitioner.

STORAGE

Store tightly sealed in a cool dry place, away from direct light. Keep out of the reach of children.
