### SF750 / 60 Vegetarian Capsules

### EXCIPIENT FREE

This product does not contain wheat, gluten, corn, yeast, soy, egg, dairy products, or artificial colors, sweeteners, or flavors. This product also does not contain lactose, palmitic acid, or magnesium, calcium, or vegetable stearates.

### HOW SUPPLIED

Ferrasorb® is supplied in bottles of 60 two-piece vegetarian capsules. Packed 12 bottles per case.

### CONTRAINDICATIONS AND WARNINGS

Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under six. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

Active folate supplementation is not recommended concurrently with methotrexate cancer therapy, as it can interfere with methotrexate's anti-neoplastic activity; however, folic acid has not been shown to interfere with the anti-inflammatory activity of methotrexate. A patient taking methotrexate for psoriasis, rheumatoid arthritis, or juvenile rheumatoid arthritis can safely take a folate supplement.

This product is contraindicated in a patient with a history of hypersensitivity to any of its ingredients.

### INTERACTIONS

Iron deficiency can be induced by tricyclic antidepressants or thyroxine.

Iron deficiency is prompted by copper and selenium deficiency as well as lead exposure.

Iron absorption is enhanced by ascorbic acid.

Folinic acid supplementation is not recommended concurrently with methotrexate cancer therapy, as it can interfere with methotrexate's anti-neoplastic activity.

### PREGNANCY WARNING

Some women may reduce their risk of having a child with birth defects of the brain and spinal cord by maintaining adequate intakes of folate during their childbearing years.

A patient who is pregnant or nursing, or who might become pregnant, should consult a health-care practitioner before using this product.
